

To Whom This May Concern,

I am writing this letter at the request of Akhdan Arifuddin, who is applying for the Double Degree Program at Kumamoto University.

I have known Akhdan for two years since he studied in my class at Institut Teknologi Sepuluh Nopember. Akhdan took a Business Analytics class from me and earned a superior grade since he could make a good forecasting program and present the project well. This made me believe that he could do much more than this, so I entrusted him to be my assistant in class for the next semester.

Akhdan has several strengths, such as a great willingness to work, excessive inquisitiveness, and good communication skills to present his work. This leads him to earn an excellent score for his undergraduate thesis. For now, he is also working on research with me, and we hope the research can be published as soon as possible.

In conclusion, I would highly recommend Akhdan Arifuddin. If his performance in my class and the strengths I have mentioned before indicate how he would perform in his Double Degree Program, Akhdan will be a good student in that program.
